RESEARCH INTEREST

Multi-Modal LLM, Operating System, efficient deep learning inference.

EDUCATION

Sungkyunkwan University, Suwon, Korea, Republic of

Bachelor of Computer Science and engineering

Mar. 2021 - Present

Selected Coursework

CS : Data Structure, Programming Practice(Java, System , Open Source SW), System Program. Computer Architecture, Operating system, Probability and Random Process, ,Introduction to Database , Computer Networks, Multicore-Computing

AI : Open Source AI Practice, Introduction to Artificial Intelligence, Introduction to Deep Neural Networks , Fundamentals of machine learning, Introduction to Sequential Data Processing

HW: Logical Circuit, Digital system

RESEARCH EXPERIENCES

IRIS Lab, SKKU

Undergraduate Research Assistant (Advisor: Prof. Jonghwan Ko)

Jan. 2026 - Present

- Conducting research to develop a retriever robust to ASR errors in speech RAG

Human Language Intelligence Lab, SKKU

Undergraduate Research Assistant (Advisor: Prof. JinYeong Bak)

Jan. 2025 - Jun. 2025

- Conducting research to develop a retriever robust to ASR errors in speech RAG

PROJECTS

2022 Industry-Academy Cooperation Project [\[GitHub Page\]](#)

Mar. 2022 – Dec. 2022

- Projects with “MediAI+” - Provides automated clinical trial schematic diagram generation service (Field: AI & NLP)
 - Development of PICOT information extraction module from ClinicalTrials.gov
 - Fine-tuning BiolinkBERT for Named Entity Recognition

PATENT

[P01] “Apparatus and method for clinical trial data visualization”, Korea, Republic of

Dec. 2023

EXPERIENCES

The 10th Sungkyunkwan University Software Department Ambassador

Mar. 2021 – Oct. 2022

- Conduct Software department major experience activities for high school students
- Operation of YouTube channel for department promotion (Responsible for Video Planning and Appearance)

Sungkyunkwan University Software Department Self-driving car study SCAR

Mar. 2021 – Dec 2022

- Conducting an artificial intelligence study related to autonomous driving

HONORS AND AWARDS

Open Source Software Practical Contest, Department of software, Sungkyunkwan University

Dec. 2022

- **Excellence Award**, Open Source Software Practical Class Contest, Awarded 1,000,000 KRW

Global Challenge Program, Department of software, Sungkyunkwan University

Dec. 2022

- Awarded 3,000,000 KRW
- Visited San Francisco and San Diego

Dean's list , Department of software, Sunkyunwan University	Mar.2026
- Top 10% Scholarship in the Department	
Academic Excellence Scholarship , Sunkyunwan University	Mar.2026
- Top 3% Scholarship in the Department	
Student Success Creative Scholarship , Sunkyunwan University	June.2026
